

# Adhesive Mix

**UNYIELDING STRENGTH WITH OLD MILL ADHESIVE MIX**

Transform your indoor spaces with ease and confidence using Old Mill's Brick Bond. This pre-mixed, multi-purpose adhesive is the go-to solution for installing thin brick, ceramic wall and floor tiles with utmost perfection.

Modified Adhesive

## Elevate Your Interior Projects With Brick Bond

Seeking an adhesive that won't let you down? Dive into the reliability of Old Mill Adhesive Mix. Crafted to perfection, this adhesive offers the kind of bond that becomes the backbone of any construction project. Its smooth texture is not just a pleasure to work with but also ensures effortless application. A single 50 lb. bag generously covers up to 70 sq. ft, offering both efficiency and economy.

For bonds that stand unchallenged, make Old Mill Adhesive Mix your choice. It is engineered to offer high flexibility, high adhesion, and easy handling, ensuring less job site waste and a more precise mixture than liquid basecoats. This adhesive is not only ideal for use with Old Mill thin brick and Brickwebb products but also excels in various other applications, making it a versatile and reliable choice for your construction needs.

## Benefits

### Superior Pull-Out Strength

Ensures that whatever it holds stays put.

### Versatility

Designed to fortify the bond between brick and Old Mill foam panels, and also effective with Old Mill thin brick, Brickwebb, stone, or tile products.

### Flexibility & High Adhesion

Adaptable to various construction needs, providing a strong and reliable hold.

### Easy Handling

Smooth texture for effortless application and less job site waste compared to liquid basecoats.

### Efficient Coverage

Covers about 70 sq. ft per 50 lb. bag, making it cost-effective.

### Part of Panel+ System

Panel+ comes with our 15-year warranty.
